Re: Soil Removal and Restoration Planning Meeting

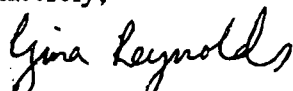

Dear Mr. Schechter:

This is to follow-up on an informational meeting held on August 4, 1999 regarding the planned soil removal activities to be conducted at seven residential properties located on Delmore Avenue and Hamilton Boulevard in South Plainfield, New Jersey.

I have enclosed for your review an information package prepared for this meeting which contains the excavation and restoration plans for your property, and the proposed meeting agenda. At this meeting, ENVIRON presented an overview of proposed soil removal and restoration activities at the seven subject properties, and the anticipated implementation schedule. In addition, we discussed the extent that access to each of the properties may be disrupted during the implementation of these activities. Finally, we discussed the option to have property owners identify their preferred landscaper, if any, to complete the work shown on the restoration plan.

At this time, we are requesting any comments you may have on the excavation and restoration plans for your property. We would appreciate your input on these plans by August 11, 1999. If you should have any questions regarding the meeting or the enclosed information, please call me at (609) 951-9047.

Sincerely,

Gina M. Reynolds
